FIGHT TO BE HOT ON

River and Harbor Measure May Not Be Able to Pass in Its Present Form.

Once the Senate gets the ship pur chase bill off its hands, there will be commander of the local department, a hot fight over the giver and harbo bill, which has come to be widely known as the "pork barrel" bill. The fact that the Commerce Com

Department of the Potomac Host to David J. Palmer at the Raleigh.

Col. David J. Palmer, commander-inchief of the Grand Army of the Republic, was guest of honor last night at the forty-seventh annual banquet of the local Department of the Potomac held at the Raleigh Hotel.

Because of the illness of L. H. Pat rson, who was to have acted as toastmaster, in his capacity of senior vice Thomas H. McKee presided during the dinner, and the program which followed, and which included "Presenting the Colors," a toast responded to by

the fact that the Commerce Committee has reported a bill carrying about \$3,000,000, an increase of about \$4,000,000 over the Hōuse bill, means that the opponents of the "pork barrel" in the Senate will subject the measure to a careful scrutiny.

Senator Burton, who intends to go out of Congress battling for what he believes to be a right system of making river and harbor appropriations, will make a minority report from the Commerce Committee against the bill. Senator Kenyon has long been storing up ammunition with the purpose of going gunning for it.

The Senate for days has been in the threes of one of the most remarkable filiburters it has ever experienced. It may find itself in the midst of another. Considerable doubt is felt whether the river and harbor bill can be passed in its present form.

The advocates of the bill have reported it to the Senate ahead of other appropriation bills. This gives it an advantage. Otherwise it must be talked to death.

Senators Burton, Kenyon, and the

willing to filibuster against the river and harbor bill may not maintain a protracted fight; but they say they will let the country know the nature of some of the projects.

The opponents of the measure are not fighting to cut off river and harbor appropriations generally. They stand on the position that meritorious projects only should receive Government money and "pork" should be cut out.

B. A. A. Meet Tomorrow.

BOSTON, Feb. 5.—Athletes from all colleges and athletic associations of the East will compete here tomorrow in the B. A. A. indoor meet.

A reception, musicale, and dance were given by the Scottish Rite bodies of the District in honor of the Ladies of the Rite at their temple last night, Roe Fulkerson, thirty-second, presiding.

The boy sopranos of St. John's choir, led by Charles R. Wilkerson, was a feature of the program. Miss Hazel Bornhelm and Mrs. Julian Brylawski sang several solos, Vaudeville was furnished by Herbert J. Jacobi and Morris Bimon, assisted by members of the Grease Paint Club. Others who entertained were Miss Emma M. C. Bender, L. Lewis Hall, Otto E. Woener, and Sacher Micosz.

12 Drops of "GETS-IT," Out Comes the Corn!

"How Wide Is a 'GETS-IT' Smile? Well, a Good Deal Over 2 Feet!" Good Deal Over 2 Feet!"

There's no corn or callus among the millions of feet in the world that "GETS-IT" will not remove—there's no escape. "GETS-IT" is the new way, the simple, common-sense, sure way. It does away with greasy ointments, salves, pads, cotton rings, harnesses, knives, scissors, razors, files, and the limping and the painful pigeon-toe walk of so many corn-pestered people. All you do is put 2 drops of "GETS-IT" on —the corn shivels up—and good hys. Nothing else in the world like "GETS-IT." Millions are using it. There's no pain, no trouble, no changing shoes because of corns.

"GETS-IT" is sold by druggists ever where, 25c a bottle, or sent direct by the cause of corns.

more, interference with marrage is needed, in Dr. Bell's opinion.

"Marriage is too sacred an institution to be lightly dealt with," said Dr. Bell. Every man should have a right to liberty as to whom he shall marry. Unless marriages are positively injurious to the community, such legislation is unjust. The percentage of undesirables is so small, less than 1 per cent, as compared with the normal population, that they are a mere drop in the ocean of humanity.

"Undesirables, anyway, come from the normal population. If we prevent marriages of undesirables we will have undesirables from the normal population. If we prevent marriages of undesirables, anyway, show a tendency to revert to normal."

For long-lived persons to marry long-lived persons is the best sort of long-lived persons to marry long-lived persons to the lecturer said. Chairs were shown of 1,593 families to prove that a tendency toward long life could be inherited.
